AHRI MENA Office Staff Profiles

François Boueri

Vice President MENA

fboueri@ahrinet.org

+971 50 451 3096

François began his career in 1985 at Fedairco, a Lebanese design/build HVAC firm. In 1987, he joined McQuay in Minneapolis, USA, and took on increasing responsibilities over the years, from product management, to export operations, sales, distribution and managing joint ventures across Latin America, Europe, and the Middle East. From 2007 through 2014, as President of Daikin McQuay Middle East, he established and grew the Daikin presence across the region. He is the founder of SEE Solutions, a strategic consulting firm in the field of sustainability, and serves as a director on the boards of Over Middle East in Dubai and AMI sarl in Beirut. François holds a B.S. in Mechanical Engineering from Notre Dame University and an M.S. in Construction Management from George Washington University.

Nabil Shahin

Managing Director

nshahin@ahrinet.org

+971 50 737 8748

For more than 20 years, Nabil has held multiple technical and commercial positions in the residential and commercial HVAC industry. He served as the director of engineering for JCI, Daikin and Goodman, and holds an M.S. in Mechanical Engineering from Tennessee State University. He has also worked as a technical business development director, where he interacted with HVAC customers, developers, consultants, contractors, regulatory bodies, and government. He is familiar with various international HVAC regulations and standards in Europe, the Middle East, and Africa regions.

Hassan Kal

Development Manager

hkal@ahrinet.org

+971-5-85409381

Based in Dubai, Hassan will support the region’s growing number of AHRI members and certification program participants. He holds an engineering degree from the American University of Sharjah and worked as a technical sales executive at UL Solutions prior to joining AHRI.

Dalip Singh

Senior Technical Analyst

dsingh@ahrinet.org

+91 88005 40130

Dalip holds an M.S. in Mechanical Engineering and has been working in the HVAC field for several years. Prior to joining AHRI, he was Manager of Research and Development at Systemair, where he worked on product development, testing, and the certification of air side products such as air handling units, air distribution products, industrial fans, and fire containment products. He has worked closely various testing, certification, and auditing bodies, is familiar with numerous international standards and codes, and has extensive experience in lab set-up and accreditation processes.
