AHRI Releases October 2023 U.S. Heating and Cooling Equipment Shipment Data

Residential Storage Water Heaters
U.S. shipments of residential gas storage water heaters for October 2023 increased 12.3 percent, to 360,908 units, up from 321,275 units shipped in October 2022. Residential electric storage water heater shipments increased 17.7 percent in October 2023 to 437,581 units, up from 371,842 units shipped in October 2022.

Year-to-date U.S. shipments of residential gas storage water heaters increased 4.5 percent, to 3,585,860, compared to 3,432,944 shipped during that same period in 2022. Residential electric storage water heater shipments increased 6.6 percent year-to-date, to 4,065,044 units, compared to 3,814,996 shipped during the same period in 2022.

**Central Air Conditioners and Air-Source Heat Pumps**

U.S. shipments of central air conditioners and air-source heat pumps totaled 532,569 units in October 2023, down 29.9 percent from 760,038 units shipped in October 2022. U.S. shipments of air conditioners decreased 22.6 percent, to 306,735 units, down from 396,208 units shipped in October 2022. U.S. shipments of air-source heat pumps decreased 37.9 percent, to 225,834 units, down from 363,830 shipped in October 2022.
Year-to-date combined shipments of central air conditioners and air-source heat pumps decreased 14.4 percent, to 7,765,225 units, down from 9,074,709 units shipped during the same period in 2022. Year-to-date shipments of central air conditioners decreased 14.7 percent, to 4,551,330 units, down from 5,335,871 units shipped during the same period in 2022. The year-to-date total for heat pump shipments decreased 14.0 percent, to 3,213,895, down from 3,738,838 units shipped during the same period in 2022.

U.S. Manufacturers’ Shipments of Central Air Conditioners and Air-Source Heat Pumps

Notes and FAQs
A shipment is defined as when a unit transfers ownership; a consignment is not a transfer of ownership. Industry data is aggregated from the information supplied by AHRI member companies that participate in the statistics program and can be subject to revision. Published year-to-date data is inclusive of all revisions. No other AHRI data (e.g., by state or region) is available to the public other than that published. AHRI does not conduct any market forecasting and is not qualified to discuss market trends. BTUHs of 64.9 and below are for residential units; 65.0 and above for commercial.

For previous monthly shipment releases and historical data, please see [http://www.ahrinet.org/statistics](http://www.ahrinet.org/statistics).

1. How do my colleagues subscribe to the report?
Go to [http://www.ahrinet.org/statistics](http://www.ahrinet.org/statistics) and click on Subscribe.

2. Does this data represent shipments to the United States only or are shipments outside of the United States included?
This data represents shipments to customers in the United States only.

3. Do you provide U.S. data by state?
That data is not available publicly.

4. Is historical data available in Excel?
It is available monthly reflecting exactly the data presented in the monthly public release.

5. Is data available in a different format?
The only format available is provided on the website.
6. Does the December YTD data equal full calendar year?
Yes, it does.

7. Can I purchase additional industry data from AHRI?
No, AHRI statistical data is not for sale.

8. Does AHRI provide information for academic research purposes?
AHRI is not authorized by our members to provide information other than what is listed on our website.

9. How much of the industry does the data represent?
Although we cannot get into specifics about how much of the industry the data represents, in general, AHRI is one of the largest trade associations in the nation, representing more than 300 heating, water heating, ventilation, air conditioning and commercial refrigeration manufacturers within the global HVACR industry. AHRI’s 300+ member companies account for more than 90 percent of the residential and commercial air conditioning, space heating, water heating, and commercial refrigeration equipment manufactured and sold in North America.

10. Is it accurate to use the number for year-to-date U.S. shipments as a measure of sales?
AHRI reports track shipments, which are defined as when a unit transfers ownership. While some people use the terms shipments and sales interchangeably, they may not be the same.

11. Where can I find the definitions for the products included in this report?
Download product definitions for monthly shipment reports here.

###

**About AHRI**
The Air-Conditioning, Heating, and Refrigeration Institute (AHRI) is the trade association representing manufacturers of air conditioning, heating, and commercial refrigeration, and water heating equipment. An internationally recognized advocate for the industry, AHRI develops standards for and certifies the performance of many of these products. AHRI’s 300+ member companies manufacture quality, efficient, and innovative residential and commercial air conditioning, space heating, water heating, and commercial refrigeration equipment and components for sale in North America and around the world.
